Sacramento Area Council of Governments Announces Distribution of \$76 Million to Local Transportation Projects Made Possible by Federal Stimulus Bill

Road Improvements, Commuter Buses and Railyards Track Relocation Among Projects Funded

WASHINGTON, DC -- Today the Sacramento Area Council of Governments (SACOG) Board of Directors announced the disbursement of \$76 million of federal stimulus funds for Sacramento area transportation projects, made possible by the American Recovery and Reinvestment Act. Congresswoman Doris Matsui (CA & 05) supported the bill which was signed into law by President Obama in February.

The American Recovery and Reinvestment Act is a robust economic recovery package that puts a substantial amount of federal dollars into a wide variety of programs to help Sacramentans & and people across the country & get back to work and back on track. Within weeks, millions of dollars have been allocated to address various needs across Sacramento.

“Today’s authorization of \$76 million in stimulus funds is a victory for all Sacramentans,” said Rep. Matsui. “This funding will put people to work improving our roads, bus and light rail systems. We will start breaking ground on new projects and construction in the very near future and expedite existing projects through this tremendous investment in our community. SACOG’s decision on how to use the stimulus funds was transparent, deliberate and bold; they should be applauded for their efforts.”

“We greatly appreciate the work of Congress and our federal representatives to bring economic stimulus dollars and much-needed jobs to our region,” said SACOG Board Chair and Yolo County Supervisor Helen Thomson.

These funds are in addition to the \$32 million authorized in February for road rehabilitation throughout Sacramento. A
